

Blackhawk Partners and Golden Sea Ways sign a 200 Million Euros Partnership Agreement to Fund & Facilitate the purchase of 25 vessels.

New York, NY September 1, 2014

Blackhawk Partners, Inc. - a private equity family office involved in the physical commodities trading business and venture capital investments - is excited to announce it has signed today a Partnership Agreement with Golden Seaways to fund and facilitate the purchase of 25 vessels over the next 5 years.

ABOUT BLACKHAWK PARTNERS, INC.

Blackhawk Partners, Inc. is one of the world's most reliable traders and suppliers of a wide range of commodities and financial instruments to industrial and financial consumers globally. Blackhawk's customers around the world rely upon the Firm established global network of operations as a source of Metals and Minerals and Crude Oil and Oil Products. These products originate either from Blackhawk Partners directly or indirectly owned assets, or are secured by Blackhawk from third parties.

Blackhawk Partners is also a family office that serves as an investor in its clients. The company's main role is to act as lead equity investor in "cash flow generating" management-led buyouts, strategic equity investments, equity private placements, consolidations and buildups, along with growth capital financings throughout the asset class categories. The Firm is industry agnostic and invests globally as long as it is dealing with the right "operators".

ABOUT GOLDEN SEA WAYS

Golden Sea Ways is a ship – owning and ship management company which was established by Alexandros Kaloutsas and is based in Volos, central Greece. The company specializes in sea transport with self discharger and gearless owned or chartered vessels. Golden Sea Ways aims in partnership with Blackhawk Partners to expand the fleet and create a network with at least 25 vessels, with size from 5.000 dwt up to 50.000 dwt. The company's vessels are mainly operating in the Aegean Sea, Mediterranean and Black Sea.

Golden Sea Ways have succeeded to co - operate with well known and reputable companies and organizations over the last 5 years.. such as in 2011 with the government of Qatar which used vessels of the company in order to transfer humanitarian aid in the war of Libya and in 2012 with construction companies

responsible for the marine infrastructure at the Olympic Games in Sochi, Russia which entrusted the company for the transport of all Materials.
